2)	
3)	
4)	

If you are interested in volunteering or taking a position as a Director, please check here: \_\_\_\_\_  
 I have **READ** and understand the **GCFGGA RULES AND REGULATIONS:** \_\_\_\_\_

**ALL MEMBERSHIPS EXPIRE on MARCH 31 ANNUALLY**

**Gate Codes and other Door Access Codes are given to each member individually and are not to be given to non-members.**

**Anyone residing in Grande Cache must have their own membership in order to use the facilities unless under a day rental and the range is closed to the membership**

**Guests:** Members may bring out of town guests to the range. A Collection Box at the front counter is there for their fee of \$20/guest/day.

**ALL members must sign in and out at the main building- this is both a CFO and RCMP requirement. The RCMP requires that our log in sheets record RPAL numbers of members for range use. It is a condition of our range approval from the CFO. It is also necessary for insurance purposes. We thank you.**

### **IMPORTANT MEMBER INFORMATION**

This is YOUR Club- what you get out of your club relates to your use of it, and the use by other members. Be Respectful of the money, time and effort the volunteers, Executive and sponsors, private and commercial have put into YOUR club. Leave it a bit better when you leave than when you left. Don't destroy target stands or posts- we do have video surveillance, but revoking memberships isn't what the Club should have to resort to if members are committing acts of vandalism.

#### **SAFETY, SAFETY, SAFETY**

- Signage- It's there for a reason- regulatory, mandatory, or because it's been an identified past issue.
  - Pay attention- remember safety first.
- Don't bring your pets down- genuine working or service dogs are at the handler's risk and sole responsibility.
  - Park in designated Parking Areas only.
- Vandalism, theft or misuse of the facilities will not be tolerated. Alcohol and cannabis are not to be consumed on the premises. Don't be 'that person'...
- Please ensure gate is secured when leaving the range and you are the only party on the premises.

## **RANGE RULES OF OPERATION**

### **Caliber and Ammunition Limits**

- 1.** AP, Tracer, Incendiary Ammunition is **NOT ALLOWED**- if you see your ammunition is causing extensive damage to metal targets/stands, **STOP USING IT** on those targets- stick to the backboard targets please.
- 2.** Firearms, crossbows and bows may only be discharged on designated ranges and no firearms may be discharged outdoors between one half hour after sunset and sunrise the following day
- 3.** Outdoor Firearms ranges are approved for any pistol, shotgun, rimfire or rifle ammunition when shot at **APPROPRIATE TARGETS**
- 4.** Indoor Range is approved for any handgun or rimfire ammunition, and archery when arrow nets are up and archery targets in place. Indoor range may be used 24 hrs/day for approved firearms
- 5.** **ALL Firearms Ranges** run on a flag system. Any range in use must have a raised flag or the person using the range is responsible to do so - this should be red. Lighting systems may be used in place of flags- in which case a red light indicates a live range, a green light (if present) would indicate the range has been cleared by an RSO.
- 6.** **DO NOT** move forward of the shooting line on a live range!
- 7.** Be Respectful- if you are using targets other than paper, pick up the remains when done, grab your brass and empties and put them where they belong- garbage cans and recycle bins, as well as ashtrays are provided around the premises.
- 8.** All firearms must be unloaded unless in use on a shooting line. Bows and crossbows should not be drawn until on the line and the line is "Live".
- 9.** EYE and EAR protection is a must!
- 10.** All firearms are to remain action open and empty unless in use on the shooting line.
- 11.** ANYONE noticing an unsafe condition on the shooting line should call a 'Cease-Fire' and take appropriate actions.
- 12.** When finished shooting, leave firearms empty, action open.
- 13.** Do Not leave firearms unattended.
- 14.** Proper paper, cardboard or re-usable 'reactive' targets are allowed on all ranges provided they do not result in shots in unsafe directions, undue risk of ricochet and have one of our backstops or berms behind them. Silhouette, 'zombie' and other novelty targets are fine, but cannot depict a recognizable person's face.
- 15.** **TANNERITE** or other exploding, burning or binary targets are **NOT** permitted on the premises without Executive approval.
- 16.** **BROADHEADS** and **CROSSBOWS** are **NOT** to be used on Club targets **UNDER ANY CIRCUMSTANCES**- none of our targets are rated for the kind of

abuse this puts Club targets through. Please bring your own portable targets for broadheads and crossbows.

17. Special activities and Day Rentals (\$250/day) or range closures may occur; Day Rentals closes the entire facility to all members for the day unless they are part of the Day Rental party. If a Special Event is not making use of a particular range or area for the duration of the Event, it will be assumed that those areas will remain open to members.

### **Range Officers**

As the Club does not employ staff, the first person arriving and using a particular range (Firearms or Archery) becomes the Range Safety Officer of that range for the duration of their time there, or until replaced by a certified RSO. This makes **YOU** personally responsible for the shooting line you are using- ensuring you or the rest of your party are following the safety practices outlined by respective sports, by our Club's rules and provincial and Federal regulations.
